Personal Details

Summary

- Proactively learner and eager for new technologies
- Extensive developing experience in Java and Web Apps
- Excellent interpersonal communication skills, good team spirit and adaptability

Skills and Achievements

Effective learning

- Able to use all available methods to improve efficiency in knowledge learning and never afraid to face with unfamiliar fields, as demonstrated during my time at Info-Sci. I learned Fusion Charts as a beginner and successfully finished the development task on time
- Good time management skills and able to keep concentration on learning affairs. Always able to finish my study in time.

Customer service

- Ability to quickly build rapport with customers and effectively deal with any problems or demands submitted by customers.
- Capacity to maintain professional relationships through email and other written correspondence, for example, at Yihongyu, where I built good relationships with customers from Chinese governments of company's project.

Teamwork

- At Info-Sci. and Yihongyu demonstrated excellent teamwork skills in a busy developing environment, such as an ability to listen to clients and managers, perform my role to a high level and support colleagues, resulting in promotion.

Problem solver

- Excellent ability in solving problems, able to find the key point of a certain problem exists, for example, dealing with Javascript compatibility problems in different browsers at Yihongyu.
- Always remember to take notes for any problems encountered. Make sure to solve similar problems quickly next time and willing to help other people who meets them.

Experience of working with people in variety backgrounds

- Working experience with people from Info-Sci.(worked for a bank), Yihongyu(worked for government) and Human Computer Interaction(HCI) Project of UoB(working with people from four different countries) makes me flexible with different working and thinking mode.

Initiative & Helpful

- I wrote some Javascripts and post them to a public script host website when studying Javascript. In order to receive others' reviews, comments and advices and also try to help someone who may need my scripts.
- Learned some other languages by myself and joined some communities to communicate with each other, and adapt to new and different environments.

Self-understanding

- Have a good understanding of myself, knowing and always working hard to achieve my goal.
